# nest<sup>®</sup> WOODEN OUTDOOR FURNITURE

Nest represents a reawakening of original design and a curated tribute to the timeless endurance of natural materials.

For the visionary designer who seeks more than a silhouette, we present a collection defined by heritage-sourced forestry teak.

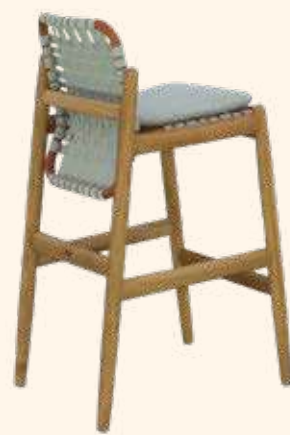

Born from the mineral-rich heartlands of Central and East Java, this wood matures through a slow and soulful struggle against harsh soils. It is within this earth, enriched with phosphorus, oil, and calcium, that the teak develops its extraordinary density and rhythmic, abundant grain patterns.

Nest embraces a philosophy of true eco-consciousness, harmonizing the natural honesty of the forest teak with the architectural strength of aluminum to create a balanced, sustainable range of original designs.

We invite you to explore the history within these fibers and use the enduring strength of **Nest** to anchor your most inspired outdoor projects.
